Vehicle Mounts

DVRM-1 and DVRM-2

Dillon's line of Vehicle Ring Mounts provide a 'drop-in' armored gun mount for any vehicle. Dillon mounts accept a wide range of weapons, including the M134D Gatling Gun. All Dillon Ring Mounts use composite armor to provide light weight, Level 4 protection.

DVRM-1 Ring Mount

The DVRM-1 support assembly is designed for the HMMWV class of military vehicles. Additionally, DVRM-1 is easily adapted to operate with any open bed type of vehicle.

The DVRM-1 may be installed in conjunction with third-party vehicle armor systems or as a stand alone turret with 'floor to ceiling' armor. Built on a heavy duty, sealed bearing ring, the DVRM-1 allows 360° of travel and easily supports the heaviest loads. The DVRM-1 installs in one hour and does not require vehicle modification.

DVRM-2 and DVRM-3 Armored Weapons Assembly

Dillon Aero now offers an Armored Weapons Assembly for HMMWVs equipped with a factory installed ring mounts. The DVRM-2 and DVRM-3 bolt directly to the factory bearing ring. This allows for rapid installation that may be completed in the field. Like all Dillon Ring Mounts, the DVRM-2/3 series are light weight, and easy to operate.

DVRM STATS	DVRM-1	DVRM-2/3
Ring	42" dia.	N/A
Height:	45"	24.5"
Length:	53.5"	35.25"
